WILL REPORT ON EVERY PHASE OF SCHOOL SYSTEM

Government Survey of City
Schools Is Begun by Corps
of Experts From U. S.
Bureau of Education.

Every phase of the Memphis school system will be investigated by the corps of experts from the United States bureau of education, who have begun their work under the general direction of Dr. F. Bunker.

Dr. Bunker spent Tuesday and Wednesday organizing his force, which will be augmented within a week to include 15 men and women, each a specialist in some department of education. Dr. Bunker has secured temporary offices in the M. C. A. building, but after the coming week expects to secure more adequate quarters. The survey in Memphis will require about a month's time and will be the most complete ever made of the city schools. The investigations will include study of the finances of the school system, sources of income, office accounting system, an analysis of expenditures in every department, a similar study of the department of superintendence, including the work of the office and of the principals in each building.

The efficiency of the teaching force as a whole will be tested and members of the government party will visit each school building frequently while the schools are in session.

Other experts on sanitation, school hygiene and building construction will investigate physical conditions of every building.

A study of the scholastic population will be made, with a view to determining the causes for the overcrowded condition in most of the schools, and this will be used as a basis for any recommendations made as to additional or new buildings and their locations.

Members of the government party will even study the work of the board of education itself, and for that purpose will attend every meeting of the board while they are in the city.

The men and women sent here will make an absolutely impartial report, which will be made up of a report from the bureau of education and will be published in pamphlet form for the information not only of the people of Memphis, but of the educators of the entire country.

Dr. Bunker this week is being assisted by Dr. Hiram Byrd and Dr. A. E. Dunn, of Washington, Dr. S. D. Drexler, of Washington, Dr. Alexander, of Peabody college, Nashville, and Miss Ada Stone Harris, of the Philadelphia Academy, an expert on primary education.

TWO ARE HELD AS ELBERT STANDARD

A negro suspected of being Elbert Standard, murderer of Policeman Andy White, of the Memphis police department, is being detained by the authorities at Carbor Hill, Ala. Although, as the result of a communication over long distance telephone with the Alabama authorities, Joe Burney, chief of police, does not believe the negro is Standard, he sent a photograph of Whites' slayer to the Alabama town. A suspect is being held at Taylorsville, Ill., by the sheriff of that county, who believes that he might be the fugitive murderer from Memphis. A photograph of Standard was sent to the Illinois sheriff Tuesday night by Paul Waggener, superintendent of identification of the Memphis police department.

MARINES IN PARADE

All marines in Memphis and territory as well as former marines, are requested to attend a meeting to be held Friday evening at 7:30 o'clock in the Odd Fellows building when plans for their participation in the centennial parade, May 15, will be outlined. It is expected to have between 300 and 500 marines in line and arrangements for their participation are being made by Carl Fraser Wood, of the U. S. marine committee.

MEMPHIS REALTORS TO ATTEND NATIONAL MEET

Memphis realtors are planning for a strong representation at the national convention of realtors to be held at Steel Pier, Atlantic City, the last week in June.

John M. Dean, president of the Memphis Real Estate association, has appointed a committee of E. O. Bailey, chairman, Ernest Adams and T. J. Turley to work up interest among the

FRENCH LIFT EMBARGO ON MOST OF EXPORTS

PARIS, May 14.—The cabinet has approved a decree abolishing all restrictions on exports, except certain foods and products connected directly with the reconstruction of the liberated regions. The decree of Jan. 20, 1919, prohibited the exportation of 140 different articles. The new decree affects only 19 articles.

The question of the prohibition of importations, it is understood, is being closely studied by the government with a view to making agreements with allied and associated powers.

Petticoats

1

In offering this wonderful special under our dollar plan, please note that our stock is limited in this department, so therefore we urge you to be on hand early, as first to come get best choice.

THE POLICE FORCE OF THE BODY

DAY and night—without ceasing—a struggle is going on in your body between the germs of disease and the white blood corpuscles—the police force of the human body.

If this police force weakens, disease germs gain a foothold—sickness follows.

Constipation is the most common and dangerous way of corrupting the human police force. Food waste remains too long in the intestines—decays—poisons the blood—and opens the way for attack by the germs that cause tuberculosis, diphtheria, pneumonia and a multitude of other ills.

The culpable habit of using salts, pills, mineral waters, castor oil, etc., to force the bowels to move, makes this condition even worse, as constipation returns almost immediately.

Nujol is entirely different from drugs as it does not force or irritate the bowels.

Nujol prevents stagnation by softening the food waste and encouraging the intestinal muscles to act naturally, thus removing the cause of constipation and self-poisoning. It is absolutely harmless and pleasant. Nujol helps Nature establish easy, thorough bowel evacuation at regular intervals—the healthiest habit in the world.

Get a bottle of Nujol from your druggist today and keep your police force on the job.

PLAN TO EXTEND ST. FRANCIS LEVEE

Tax for Levees Is Raised From
Twenty to Twenty-five
Cents Per Acre.

The lower end of the St. Francis levee system is to be extended for about four miles to the St. Francis river.

The estimates will be made up for the proposed new stretch of levee by the chief engineer of the St. Francis levee board, H. N. Pharr, and within 60 days officers of the board expect to be ready to receive bids.

The work, owing to increased cost of labor, probably will cost considerably more per mile than other portions of the levee, but the demand from landowners and residents has become so urgent for the protection of lands in that section of St. Francis, Lee and Phillips counties, that it was decided to order the improvement.

Action was taken at the meeting of the board held Tuesday at Bridge Junction, where their offices are located.

The estimated cost of the four miles of new work is \$200,000. Probably the entire cost, at least for the present, will have to be paid out of the St. Francis levee board's funds. Surveys of the proposed new work, however, have been made by government engineers.

Plans for the new levee contemplate building a new section running from the present end of the St. Francis system toward Brown's ridge, then following the general trend of the St. Francis river. The new levee will protect, it has been estimated, about 400 acres from back-water overflow during high water.

The board at its session Tuesday also voted to increase the levee tax from 20 cents per acre, which will provide about \$90,000 additional funds this year. It was also decided to ask the Mississippi river commission to aid as soon as funds are available, in the cost of raising the height of the levees at the lower end, so as to bring them up to the standard of the rest of the system.

**ARKANSAS AROUSED
OVER CENTENNIAL**

The Missouri Pacific railroad has arranged for two special trains to handle the Centennial crowds from points in Arkansas, in addition to extra equipment on all passenger trains during the week. H. D. Wilson, general passenger agent for the Missouri Pacific, has returned from a trip over the line to assist in the arrangements of interest in the Centennial. The greatest interest in the Centennial has been aroused, he says, and everybody seemed to be talking about it and making plans to attend.

The first special train will leave Hot Springs, Ark., Wednesday morning at 6:25 a. m., arriving here via Marianna and the Marianna branch at 10 o'clock. The second special will run on the same schedule Saturday. Pike Mr. Wilson also visited Camp Pike for handling the troop of cavalry that will be sent here from Camp Pike to take part in the big parade. A special train of five coaches for this purpose will leave Camp Pike at 8 a. m. Sunday morning and arrive here at 2:30 p. m.

QUICK FLIGHT PLANNED.

TREASSEY, N. F., May 14.—Though Commander John H. Towers, chief of the American naval transoceanic flight expedition, was having difficulty in keeping in touch with Lieutenant Commander Read, flying from Champlain, Mass., in the NC-4, he believed his associate would attempt a nonstop flight to this harbor.

The crews of the NC-1 and NC-3, anxious to have the NC-4 join them for the oceanic cruise, arranged for a scout plane to meet Lieutenant Commander Read at sea and guide him to the harbor here, which the beleaguered plane was expected to reach about dusk.

STRENGTH FOR YOUNG MOTHERS

How Lydia E. Pinkham's Vegetable Compound Restores Health and Strength.

Lansing, Mich.—"After the birth of my child I was not able to stand on my feet. I was so weak I could not get up. I suffered such pains in my back I could not work or hardly take care of my baby. One of my neighbors recommended Lydia E. Pinkham's Vegetable Compound.

I took it and used Lydia E. Pinkham's Sanative Wash, and I got better right away and was soon a new woman and could work hard, and I can recommend these remedies to other young mothers who are weak and ailing as I was."—Mrs. Ora O. Bowers, 621 S. Hosmer Street, Lansing, Mich.

Women who are in Mrs. Bowers' condition should not continue to suffer from weakness and pain, but profit from her experience and give this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial.

For suggestions in regard to your condition, write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of their 40 years' experience is at your service.

THE
RHEIMS
PATTERN

OF EXQUISITE GOTHIC
DESIGN AND MADE IN
WALLACE
STERLING
SILVER

An exquisite Gothic design inspired by the greatest, the most magnificent ruin of martyred France—Rheims Cathedral.

In this pattern has been caught and held the art, the strength, the glory of that famous edifice. At the same time in each piece is found that element of usefulness so necessary in a silver table service.

Don't fail to see this new design.
